

Prepleaf Interview Readiness Program

Assignment

Problem Statement:

Given below are the most frequently asked questions in an interview. You need to script down answers for each of the questions (except for the one not applicable to you) using the second reference material below (**Interview Readiness Questions Prep with ChatGPT**).

Questions:

1. Please introduce yourself or take me through your resume.
2. Why do you want to join our company?
3. Why is there a gap in your career/education? Why have you changed your career path to Software Development/Data science? (If applicable)
4. Why did you join Prepleaf by Masai? (if the above question is not applicable, then answer this question as the 2nd question).
5. What do you understand are going to be your job responsibilities in the given role? (DSA intern/Data Scientist/Front-end developer – as applicable)
6. Why should we hire you? Or How do you think you can be an asset to the organization?
7. What are your career objectives? Or Where do you see yourself in the next 3-5 years?
8. What are your strengths and weaknesses?
9. Let's say you are delayed on a deadline, how would you manage it? (Answer this question using the STAR Method).
10. What is your Salary expectation? And are you open to relocation?
