

Job Title: Front-End Development Intern

Company: NoBroker

Location: Bangalore, India

- About NoBroker:

NoBroker is India's leading online platform that revolutionizes the way people search for rental properties and buy/sell homes. With a commitment to eliminating brokerage and providing a seamless experience to users, NoBroker has disrupted the real estate industry by offering innovative solutions powered by technology. As a fast-growing startup, NoBroker values talent that is creative, proactive, and passionate about creating impactful products.

- Position Overview:

NoBroker is offering an exciting opportunity for highly motivated individuals to join our team as Front-End Development Interns in Bangalore. This internship provides hands-on experience for students who are passionate about front-end development, user interface design, and building intuitive web applications. As an intern, you will work closely with our experienced engineering team, contribute to real-world projects, and gain valuable skills in front-end development.

Key Responsibilities:

Collaborate with designers and developers to translate design mockups and wireframes into interactive and responsive web interfaces.

Develop user-facing features and components using HTML, CSS, and JavaScript frameworks such as React.js or AngularJS.

Optimize web applications for maximum speed and scalability, ensuring smooth and efficient user experiences across different devices and browsers.

Conduct thorough testing and debugging to identify and fix issues related to performance, usability, and compatibility.

Collaborate with back-end developers to integrate front-end components with server-side logic and database systems.

Stay updated with the latest trends and best practices in front-end development, user interface design, and web accessibility standards.

Document project progress, code changes, and technical specifications to facilitate knowledge sharing and collaboration within the team.

Requirements:

Pursuing a Bachelor's or Master's degree in Computer Science, Engineering, Design, or a related field.

Strong understanding of HTML, CSS, and JavaScript, with a focus on building responsive and visually appealing web interfaces.

Familiarity with front-end frameworks/libraries such as React.js, AngularJS, or Vue.js is a plus.

Experience with version control systems (e.g., Git) and code collaboration tools (e.g., GitHub) is preferred.

Creative problem-solving skills and the ability to work independently as well as part of a collaborative team.

Excellent communication skills and the ability to effectively communicate ideas and collaborate with cross-functional teams.

Prior internship or project experience in front-end development or web design is a plus, but not required.

#### Why Join NoBroker:

- Gain hands-on experience working on real-world projects and contributing to innovative solutions that impact millions of users.
- Collaborate with experienced engineers, designers, and product managers who are dedicated to mentorship and fostering growth.
- Access to learning resources, workshops, and training sessions to enhance your skills and knowledge in front-end development.
- Opportunity to make a meaningful impact and contribute to the growth and success of a fast-growing startup.
- Vibrant work culture with a focus on creativity, innovation, and work-life balance.
-
